Kick Your Class into High Gear with New Classroom Resources

Customizable, creative and cool classroom resources from Educational Insights are putting a new spin on fun-damentals

RANCHO DOMINGUEZ, Calif., June 30th, 2008 – With each new year comes a fresh set of shining faces eager, or not so eager, to be back in school learning. By providing an exciting classroom environment, teachers can make sure all students are eager to start the new year off right. From a customized spin wheel, to creative homework activities, to a super-sized strategy game, teachers can make learning the fundamentals fun for their students.

ReMARKable™ Spin Wheel

With the ReMARKable Spin Wheel, teachers can make Classroom Management interactive and fun! This new super-sized, customizable spin wheel turns indispensable classroom tasks into fun games. With just a spin of the wheel, teachers can select student names, award prizes, choose classroom activities, play games, and much more. Teachers simply use a dry-erase marker to fill in the blanks on any of two double-sided, write-on/wipe-off templates, and even have the option of using a blank template to design their own wheel featuring any number of spaces. The template is mounted on a sturdy spinner, which has a clicking pointer that adjusts to two positions - vertical or horizontal - for easy readability. The Spin Wheel can also be used outside the classroom at school assemblies, carnivals, fairs, fund-raising events, training events, and more.

My Body Activity Center (Ages 6 and Up)

Make learning about the body an interactive experience for students, with the My Body Activity Center. A cloth wall chart with 16 soft, stuffed, self-sticking organs and 15 embroidered labels, the My Body Activity Center challenges students to match the organs and their respective names to the appropriate places on the chart. Skillfully detailed, the self-checking organs help students learn about the organs and where they are located in the human body. Some of the organs even open up, so students can see inside. The activity center also comes with an activity guide, for an endless supply of fun games, lessons and more. The wall chart measures 38 ½ " x 19 ½ " .

The Science Homework Series: Physical Science Kit (Ages 8 and up)

Educators can take advantage of the many resources students have at home – such as freezers and sinks – to assign meaningful homework. Students can complete these 20 safe experiments at home, thereby learning fundamental science principles through hands on activities. Easy-to-follow, illustrated, reproducible instructions and worksheets are provided for each experiment. All experiments are correlated to National Science Standards and follow a science fair-style approach. Detailed background information and discussion prompts are provided for every assignment. Science topics include density, pressure, heat, sound, light, levers, pulleys, pressure, electricity, chemistry, and more. Materials are provided for 10 students per experiment in this 400+ piece kit, which includes a letter to parents in English and Spanish.

Super 6 Stamp Stations

Providing messages to students on their assignments adds meaningful context to their grades. The Super 6 Stamp Stations offer six self-inking messages in one convenient place. Teachers just dial the message of their choice, press down, and a colorful message appears, with a unique font and appealing artwork. Super 6 Stamp Stations are offered in a variety of sets, including Subject-area Positive Messages, Seasonal Positive Messages, Teacher Messages, Messages for Improvement, Positive Reinforcement, Recognizing Good Writing Traits, Motivating Good Writing Traits, and Teacher Messages in Spanish.
