Getting Ready to Play

Before using See 'n' Write, install 3 AA batteries or plug in the optional AC adapter according to the directions in this guide. Also have a pencil, eraser, and lined paper ready for use.

1. Press the green power button to begin. The LCD screen will display a start-up animation.

2. Choose the mode you'd like to play – Write or Game.

Write Mode

In Write Mode, letters are slowly formed, stroke by stroke, in the correct order and direction so children have a step-by-step model for handwriting.

1. Press one of the three script styles (manuscript, modern, cursive), and one of the two case options (uppercase, lowercase). Then press any letter button. If you only press a letter button, See 'n' Write will display your previous script and case choice.

2. Watch the screen as the chosen letter slowly forms. Copy the letter, stroke by stroke, with your pencil and paper. Once letter formation is complete, the letter stays on the screen for 10 seconds so you can continue practicing. Then the letter flashes three times so you can check your work. This cycle repeats twice so you can practice again. Next a picture of a finger pressing a button appears, prompting you to choose a letter to practice.

3. If you'd like to continue practicing the same letter, press that letter button again. You can practice a different letter by pressing another letter button. You can also change the script and case at this time.

Note: You can switch from Write Mode to Game Mode at any time.

Game Mode

In Game Mode, children are challenged to identify letters being formed before they fade off the screen, perfect for developing letter recognition.

1. After the Game Mode animation, game play begins. Can you guess which letter is being written? Pay attention to each stroke and choose the correct letter before it vanishes. The "ghostwriting" continues three times, or until you choose a letter.

2. If you choose the correct letter, the completed letter is shown. The screen erases and a new mystery letter is formed.

3. If you choose an incorrect letter, you get two more tries to watch the "ghostwriting" formation and pick the correct letter. After the third incorrect answer, the correct letter flashes three times. The screen erases and a new mystery letter is formed.

4. If you do not choose a letter, the "ghostwriting" finishes three formations and then flashes the complete letter. This sequence continues until you switch modes or turn the unit off.
**WARRANTY INFORMATION**

Dear Customer,

Thank you for purchasing See ‘n’ Write. We’re certain that you will enjoy the learning fun offered by this product.

Educational Insights products are guaranteed to function for one year. Educational Insights warrants each unit against defects in material and workmanship for one year from the date of purchase to the original purchaser only. This warranty is invalid if the damage or defect is caused by accident, consumer abuse, or unauthorized alteration or repair. This warranty does not cover any claim concerning worn-out or defective batteries.

If your See ‘n’ Write fails to operate satisfactorily during the first year after purchase, return it postage prepaid with your check or money order for $6.50 for handling and inspection. Be sure to include the product, your name, address, proof of purchase, and a brief description of the problem. Send this information to the factory service center listed below. If the unit is found to be defective within the first year, it will be repaired or replaced at no further cost to you.

**Using See ‘n’ Write with Batteries**

For best operation, always use fresh alkaline batteries. Other battery types will have a shorter life. After two minutes of non-use, the unit will automatically shut down.

1. Carefully open the battery compartment door located on the bottom of See ‘n’ Write by loosening the screw holding it in place.
2. Install three fresh AA-cell (1.5V) batteries in the battery compartment, carefully following the diagram showing the correct battery placement. This diagram is found inside the battery compartment.
   - Batteries must be inserted with the correct polarity.
   - Do not mix old and new batteries.
   - Do not mix different types of batteries: alkaline, standard (carbon zinc), or rechargeable batteries.
   - Non-rechargeable batteries are not to be recharged.
   - Do not use rechargeable batteries.
   - Only batteries of the same or equivalent type are to be used.
   - Remove exhausted batteries from the unit.
   - The supply terminals are not to be short-circuited.
3. Close the battery compartment door and tighten the screw.
4. Turn on the unit by pressing the power button.

**Using See ‘n’ Write with the AC Adapter**

With the optional AC adapter, See ‘n’ Write can run indefinitely without batteries. To use the unit with the adapter:

1. Turn the unit off.
2. Plug the end of the adapter cord into the AC adapter jack located on the top of See ‘n’ Write.
   - See ‘n’ Write must only be used with the recommended AC adapter, available from your authorized educational insights dealer. The Educational Insights stock number is 8702.
   - The AC adapter should be examined regularly for damage to the cord, plug, enclosure, and other parts. In the event of such damage, do not use the AC adapter until the damage has been repaired.
   - Disconnect the AC adapter before cleaning.
   - The AC adapter is not a toy.
3. Carefully plug the adapter body into an electrical outlet.
   - See ‘n’ Write must not be connected to more than one power supply.
   - See ‘n’ Write is not suitable for children under three (3) years of age.
4. Turn on the unit by pressing the power button.
