Hot Dots® Science Cards provide a comprehensive review of science content for grades 3-5. Use the cards with the Hot Dots® pen (sold separately) for self-checking review, or use the cards by themselves as science flash cards.

What’s on Each Card?

- **Question Number**
- **Topic**
- **Illustration/Photo**
- **Hot Dots® Answer Choices**

Using the Cards with the Hot Dots® pen

The Hot Dots® pen adds instant, self-checking feedback to independent practice in a fun, interactive way. When the cards are used with the Hot Dots® pen, students receive electronic answer reinforcement in two ways:

- Touch the pen to a **CORRECT** answer dot on the card and students are instantly rewarded with a glowing green light, a cool phrase, and a variety of motivating sounds.
- Touch the pen to an **INCORRECT** answer dot on the card and the pen glows red and gently provides encouraging words and sound effects.

Before letting students work independently, demonstrate how to use the cards and the Hot Dots® pen. Choose a sample card, read the question together, and select the correct answer choice. Show students how to position the pen on the center of the Hot Dot next to the answer choice, making sure the tip of the pen is flat on the surface of the dot. Demonstrate what happens when an incorrect Hot Dot answer choice is selected.
Tips:
• Make sure that the cards rest on a hard surface when using the Hot Dots® pen on them.
• Never laminate the cards.

Suggestions for the Teacher
This set contains 36 two-sided cards with 72 questions in all. The set is divided into several topics. Students can independently read the question and answer it with the Hot Dots® pen or with pencil and paper. The cards may be duplicated and given as a group or class activity. You may also wish to project a card for the whole class to see so you can discuss the answer together.

The Table of Contents enables you to select specific cards to target content where students need reinforcement. Students can also complete an entire set for a more comprehensive review of a broader topic. Because the Hot Dots® pen provides instant feedback in an engaging way, this makes a great activity for a learning center as well as for individual practice.

Matter and Energy Table of Contents

Properties and States of Matter
1 Weight
2-5 Physical and Chemical Properties
6-10 States of Matter
11-12 Mass
13 Volume
14-15 Freezing and Boiling
16-17 Density and Buoyancy
18-21 Reactions and Changes
22 Measurement

Types of Energy
23-27 Renewable Sources
28-31 Nonrenewable Sources
32-33 Kinetic and Potential
34-36 Conduction, Convection, and Radiation

Electricity
37-40 Conductors and Insulators
41-43 Electric Currents and Circuits
44-46 Types of Electricity

Building Blocks of Matter
49-50 Atoms and Molecules
51 Periodic Table
52-54 Protons, Neutrons, and Electrons

Mixtures and Solutions
55 Mixtures
56 Solutions
57 Filters
58 Dissolves

Sound and Light
59-60 Reflection
61-63 Opaque, Transparent, and Translucent
64 Lenses
65-69 Sound and Vibration
70-71 Pitch and Amplitude
72 Thomas Edison
