INSTRUCTIONS

Contents:
- Face boards
- 1 large piece
- 10 small triangles
- 1 trick
- 1 timer

Before You Start:

1. Sort the triangle pieces according to their shape and size.
2. Create a rectangular playing field.
3. Place the triangle pieces in an empty container so that players can reach it.
4. Make sure the timer is ready to go.

Object of the Game:

Do not let the other player collect all the triangle pieces. The first player to collect all the triangle pieces is the winner.

How to Play:

1. Decide who goes first. Continue taking turns among players in a clockwise direction, following these steps:
   - Out of the mouth take one piece from the bag and place it on top of the playing field.
   - Take a triangle from the mouth and place it on your hand.
   - Take a triangle from the hand and place it on your hand.

2. Turn the piece over and place the shape on top of the playing field. Check that you have the same color and piece as the other player and turn it over. If the triangle pieces are the same, the player to the right goes next. If the triangle pieces are not the same, the player to the left goes next.

3. If a player places the wrong piece or the wrong triangle piece, or if the triangle pieces are not the same color, the player to the right goes next.

4. If a player collects all the triangle pieces, the game is over.

5. The first player to collect all the triangle pieces is the winner.

Your Final Checklist:

- Have you read the instructions on the back of the game board?
- Can you identify the pieces?
- Are you familiar with the game rules?

And the Winner Is...:

Whoever collects all the triangle pieces wins the game. Congratulations!

Thanks to...

- The designer and the producer of Shape UP! for their hard work and dedication.
- The players for their enthusiasm and support.
