Battery Installation and Information

Use a screwdriver to remove the screw. Remove the battery cover. Insert 2 AA batteries following the directions in the battery compartment.

- Do not use rechargeable batteries.
- Do not mix old and new batteries.
- Do not mix different types of batteries: alkaline, standard (carbon zinc) or rechargeable (nickel-cadmium) batteries.
- Do not recharge nonchargeable batteries.
- Remove rechargeable batteries from the toy before recharging.
- Only charge rechargeable batteries under adult supervision.
- Only use batteries of the same or equivalent type as recommended.
- Insert batteries with the correct polarity.
- Remove exhausted batteries from the unit.
- Do not short-circuit the supply terminals.
- To prevent corrosion and possible damage to the product, we recommend removing the batteries from the unit if it will not be used for more than two weeks.

Replace the battery cover. Use a screwdriver to replace the screw.

Turn off the black light when not in use. The batteries in this black light will last up to 45-48 hours before needing replacement.
